 - DBC-status-2011-03 Status March 2011 on Mobile Open Source project at DBC
 - Project-catalogue Overview of running projects and project ideas for open source mobile library applications.

About

mLibraries.org is generated from a github wiki - follow the wiki-link above. When editing this wiki, please restrict yourself to plain markdown as pdf and webpages are generated from it. Links to wikipages written in double square brackets, and should use dashes instead of spaces. The webpage is hosted at github, and the source for generating it can also be seen in the mLibraries repository.
